

Brass Art

— DISTINCTLY BRITISH —

*Constable
Collection*

Boutique Manufacturer of Luxury Door, Cabinet & Window Hardware

For decades, Brassart has specialised in the design and manufacture of contemporary solid brass door hardware for some of the most discerning residential and architectural projects around the world. Our products are perfectly suited for private residences, boutique hotels, high-end hospitality environments and many other design-led interiors where quality, material integrity, and refined design are essential.

Established in England in 1935, Brassart combines traditional British craftsmanship with modern manufacturing techniques to produce exceptional door hardware. Each piece is crafted from solid brass, chosen for its strength, longevity and distinctive character, and designed to elevate contemporary architecture and interior design.

The Constable collection of architectural ironmongery is a prestigious range inspired by the rich character and craftsmanship of the Victorian era, particularly the mid-19th century period associated with figures such as Peel, Cobden, Gladstone and Disraeli. Defined by its robust forms, decorative detailing and sense of enduring solidity, the collection includes an extensive suite of coordinated pieces—from door handles and knobs to window fittings and cabinet hardware—allowing for a cohesive period scheme throughout an interior. Handcrafted in solid brass and available in a wide array of traditional and bespoke finishes, the Constable range is designed to authentically recreate historic environments while delivering the quality and durability required for both heritage restorations and refined contemporary projects.

Our aim is simple: to create contemporary solid brass door knobs made in the UK that combine enduring materials, precision engineering, and understated design.

Brassart. England. Est 1935

Cabinet Hardware

Round cupboard knob in sizes of 28mm or 35mm. Supplied as Bolt-Through fixing.

Oval Cupboard Knob in size of 32 × 18mm.
Supplied as Bolt-Through fixing.

Cup Handle in size of 92 × 47mm.
Supplied as Bolt-Through fixing.

Shaped Flush Pull (299 × 56mm) or Standard Flush Pull (115 × 57mm). Supplied as Face Fixed.

Standard Door Handle

A close-up photograph of a dark-stained wooden door. The door features a classic six-panel design with raised panels. A polished brass door handle is mounted on the door, consisting of a curved handle and a matching vertical backplate. The lighting is soft, highlighting the textures of the wood and the metal. To the left, a portion of a wall with patterned wallpaper is visible. To the right, a white door frame and a glimpse of a hallway with light-colored walls and a wooden floor can be seen.

Available on a range of round roses or back-plates. Back-plates can be supplied with a built-in bathroom lock, euro-profile, oval profile or standard keyway.

Back-Plate Options

604 Plate - 170 × 34mm
