Hardware*

Boutique Manufacturer of Luxury Door, Cabinet & Window Hardware

For decades, Brassart has specialised in the design and manufacture of contemporary solid brass door hardware for some of the most discerning residential and architectural projects around the world. Our products are perfectly suited for private residences, boutique hotels, high-end hospitality environments and many other design-led interiors where quality, material integrity, and refined design are essential.

Established in England in 1935, Brassart combines traditional British craftsmanship with modern manufacturing techniques to produce exceptional door hardware. Each piece is crafted from solid brass, chosen for its strength, longevity and distinctive character, and designed to elevate contemporary architecture and interior design.

Brassart's range of entrance door hardware is a distinguished collection designed to create an exceptional first impression, combining timeless British craftsmanship with contemporary manufacturing techniques. Defined by elegant proportions, refined detailing and enduring quality, the collection includes an extensive suite of coordinated entrance door furniture, from centre door knobs and door knockers to door bells, letter plates and matching accessories, allowing for a cohesive and beautifully considered entrance. Expertly manufactured in England from solid brass and available in an extensive range of traditional, contemporary and bespoke finishes, every piece is crafted to the highest standards, delivering exceptional durability, precision and character.

Our aim is simple: to create contemporary solid brass door knobs made in the UK that combine enduring materials, precision engineering, and understated design.

Brassart. England. Est 1935

A close-up photograph of a dark green door. The door features a large, ornate brass knob with a flared, beaded base. To the left of the knob is a smaller brass lock cylinder. The door has a decorative, arched panel design. The word "Princess" is written in a white, cursive font in the upper left corner.
